Diabetes in Pregnancy Program

Welcome to the Women's Medicine Collaborative Diabetes in Pregnancy Program. We hope to provide your patients with the tools and encouragement needed to achieve a safe pregnancy and healthy baby. The Program is designed to address the needs of the individual patient and to complement the degree of involvement you desire in your patient's diabetes care. Please choose the resources that you wish for your patient from the list below. Our first consultation letter will provide an opportunity to modify your request as appropriate. An appointment can be made immediately via our direct phone line (**401-793-7485**), or we can call your patient, as you wish.

Please contact us with questions or concerns at any time:

Lucia Larson, MD **Pager 401-350-9743**
Marshall Carpenter, MD **Cell phone 401-323-1695**
