September 3, 2021

To the families of Narragansett Bay Pediatrics,

It is with deep sadness that we announce the passing of Dr. Courtney Lane on 8/27/21 after a year-long battle with cancer. Dr. Lane has been an important member of the NBP team since 2010. She was greatly loved by the staff and all of her patients and their families. She was such an important part of all of our lives and can never be replaced.

We all loved her laughter, optimism and brilliance. We all have fond memories of her. If you would like to share your memories of Dr. Lane with her husband and children, we will have a Memory Box, where you can leave notes or photos to share with her family.

As many of you know, Dr. Lane has been out of the office for a year. Many of her patients have seen another provider and chosen a new primary care physician (PCP). We will continue to care for all of her patients. We will work with each family to find a new PCP – we can do this at the time of your child's next appointment or you can contact the office at any time. Dr. Prateek Bhattacharya joined our practice in August 2021 and will be able to take on the care of many of Dr. Lane's patients. We know we will never replace Dr. Lane, but he is a great addition to our practice. He comes to us from Ohio where he trained at Cincinnati Children's Hospital.

Sincerely,

M. Murray, MD and all the staff at Narragansett Bay Pediatrics
