

Vanderbilt Rehabilitation Center Outcomes for Patients with Orthopedic Diagnosis

Two weeks of intensive therapy for a lifetime of better health

The Vanderbilt Rehabilitation Center (VRC) is here to provide expert, leading-edge care to those facing neurological injuries, amputation, cardiac events, and other medical conditions requiring rehabilitation. Our inpatient rehab specialists help patients return to their lives safely and sooner. **In fact, our patient satisfaction score are among the highest in the nation (3.85 out of 4).**[^]

The Vanderbilt Rehabilitation Center features:

- 28 large, private rooms, many with Newport's legendary ocean views.
- The latest virtual reality and robotic rehabilitation technology.
- Transitional apartment and home-like kitchen, laundry, and tub/showers to practice for life after rehab.
- Visits from pet therapy volunteers.

Data from UDS_{MR} October 2022 to September 2023.
