

DEADLY CUTE

DARK COLORS
Hard to see at night

BAD FITTING MASKS
Hard to see, breathe
or hear

BAD FITTING COSTUMES
Most injuries from trips
and falls

DANGEROUS TREATS
Toys with small parts

CANDLES
Keep away from kids

TO HAVE FUN SAFELY

COSTUMES: **Flame-resistant** fabrics, such as polyester and nylon, are best. They should be **brightly colored** or trimmed with **reflective tape** to make them visible to motorists at dusk and in the dark.

MASKS: Check that **eye holes** are large enough to allow full visibility and **nose holes** allow for adequate breathing.

CANDLES: Keep **candle-lit jack-o-lanterns** and other decorations where children cannot **brush against the flame**. Try **LED lights** instead.

TREATS: Put **reflective tape** on treat bags. **No toys with small parts** for children under 3.
