

Safe Gardening Tips for Kids

Avoid using chemicals in gardens where children or pets can play.

Drink plenty of water and take frequent breaks.

Supervise toddlers to prevent them from eating poisonous plants.

Lean tools vertically against walls when not in use.

Store garden chemicals in original containers in locked cabinets.

Kids should use child-sized gardening tools; keep sharp tools out of reach.

Check for sharp object before letting children walk barefoot.

Remind children to walk, not run, while gardening.

Fence off areas that should be avoided by children and pets.
