Halloween Safety

Did you know?

- Children under 12 shouldn’t be alone at night. Always go trick or treating with your children.
- Some face paints contain lead, which is poisonous—especially to children.
- 2X as many child pedestrians are killed on Halloween than any other day.

Top 10 Halloween Safety Tips

1. Wear a flame retardant costume.
2. Don’t eat homemade treats made by a stranger.
3. Always carry a flashlight with you.
4. Place reflective tape on your costume to make it easier for drivers to see you.
5. Don’t wear loose costumes that could trip you.
6. Stranger danger! Never enter a stranger’s house or car.
7. Look both ways before crossing the street.
8. Only trick or treat at houses that are well-lit.
9. Walk, don’t run across the street.
10. Always trick or treat with a buddy.

HALLOWEEN SAFETY

When choosing a costume, make sure it is the right size to prevent trips and falls.

Small children should never be allowed to carve pumpkins. Always let the child draw the design and have a responsible adult carve it into the pumpkin.

Be fire safe and try a glow stick or battery powered candle, instead of a lit candle in your Jack O'Lantern.

Twice as many child pedestrians are killed on Halloween, but young adults and parents are at risk too. Keep yourself safe this Halloween! Put the electronics down and be mindful of your surroundings.

Children often get excited on Halloween, which makes them move unpredictably. Keep a special eye out while you drive during Trick or Treat.

Trick Or Treating is usually between 5:30pm - 9:30pm so be extra careful driving during that time.

Teach your children never to cross the road between parked cars.

Tell your children to make eye contact with drivers to make sure that they have seen them before crossing.
