About Your Billing

Tel 401 793-5700

To our patients:

This letter is to give you notice that the Women's Medicine Collaborative is an out-patient department of The Miriam Hospital. It is not a private doctor's office.

Because we are part of the hospital system, you may be responsible for two charges - a facility fee and a fee for physician or other licensed professional services.

You are responsible for all copayment, coinsurance, or deductible payments according to your insurance plan.

We cannot predict the total out-of-pocket expense you will have for your visit. You are strongly encouraged to contact your insurance company prior to your office visit or procedure to understand your responsibility for any copayment, coinsurance, and/or deductible. Your copayment is due at the time of the visit.

Please also ask your insurance company if a referral or prior authorization is necessary.

If you have any questions, please contact our office at (401) 793-5700.

Sincerely,
The Miriam Hospital
doing business as Women's Medicine Collaborative

Definitions

Facility fee: A facility fee is a legally mandated charge for services given in a hospital-based out-patient department. This is also called "provider-based billing", which is a service charge for the patient's use of the hospital's facility, equipment, and support services.

Copayment (Copay): A fixed amount (\$20, for example) you pay for a health care service. Copayments can vary for different services within the same insurance plan, like medications, lab tests, and visits to specialists.

Deductible:

The amount you pay for health care services before your insurance plan starts to pay. With a \$2,000 deductible, for example, you pay the first \$2,000 of health care services yourself. After you pay your deductible in full, you usually pay only a copay or coinsurance for covered health care services. Your insurance company pays the rest.

Coinsurance: The percentage of the cost of a health care service that you must pay (20%, for example) after you've paid your deductible. For example, if you've paid your deductible in full, and the cost of the service is \$100, you must pay 20% of \$100, or \$20. The insurance company pays the rest.
